

Milwaukee 21" High Lift Mower Blade

RMW49-16-2735

Details

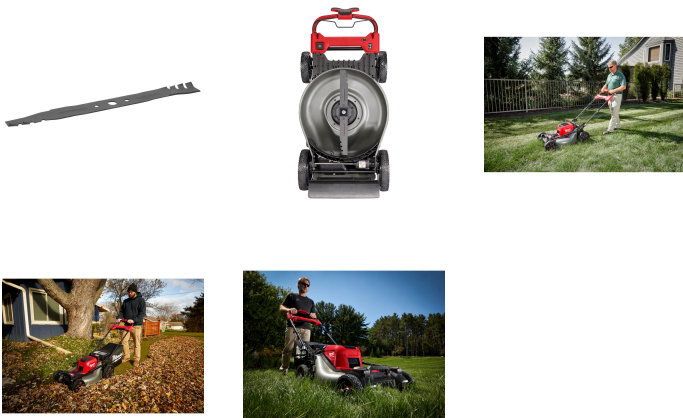

The 21" High Lift Mower Blade is designed for use with the MILWAUKEE M18 FUEL 21" Self-Propelled Dual Battery Mower (2823-20). The steel blade offers you increased durability and longer life. The precision-machined cutting edge and increased blade angle deliver an improved cut quality. The optimized high lift mower blade teeth shred grass and debris into finer pieces for improved mulching and bagging performance.

- The increased blade angle enhances air flow for improved lift and cut quality
- Optimized blade teeth shred grass and debris into finer pieces for improved mulching and bagging performance
- Steel material delivers increased durability and longer life
- Precision machined cutting edge delivers an improved cut quality
- For use with the Milwaukee M18 FUEL 21" Self-Propelled Dual Battery Mower
- 21" Blade Length
- 2 Cutting Edges
