

Greenman 19in Hover Mower - Maruyama Engine RGHG190-M800

Details

This powerful Greenman hover mower is designed to provide excellent performance for a wide variety of commercial and residential applications. The cutting deck and impeller design generates tremendous air flow to make it extremely maneuverable as it glides over grass surfaces mulching as it cuts. Powered by a smooth, lightweight and powerful Maruyama CER800, 2 stroke, 4HP engine with 4000rpm gross torque to generate greater lift with unmatched ease of use with minimal noise and vibration. Features a 19in ABS molded deck, 14in high impact plastic impeller, ergonomic 52in (132 cm) handle for extended reach with operator presence control and durable steel handle-to-deck mounts. Equipped with 3X Stainless Steel Flail Blades with an additional Single Steel Rotary Blade included to easily convert to a rotary mower. Cutting width 19in (48 cm). Wt. 37 lbs.
