

Milwaukee M12 Stick Transfer Pump

RMW2579-20

Details

The Milwaukee M12 Stick Transfer Pump delivers superior filtration for uninterrupted pumping in catch basins, water meter boxes, trenches, sump pump pits, and more. Featuring a 36" submersible aluminum barrel, this transfer pump provides the extension needed to reach water at the bottom of trenches and difficult to reach areas. Equipped with HydroPass filter technology, its 360 degree filter maximizes flow in heavy debris, minimizing downtime caused by clogging. Powered by our M12 battery platform, this water transfer pump eliminates repetitive manual pumping and improves control, requiring only one hand to pump, freeing the other to control the outflow. With a 15ft max head height and an outlet compatible with a standard " garden hose, this pump delivers the power to push water farther - out of pits and basins, over walls, and to the ideal deposit location. Compatible with all of our M12 REDLITHIUM Batteries this pump keeps you productive, effortlessly pumping up to 9 gallons per minute and 275 gallons on (1) M12 REDLITHIUM XC4.0 battery (Not Included).

Please note: This product is restricted from air freight, and will only be shipped ground freight.

- ELIMINATE REPETITIVE MANUAL PUMPING
- Effortlessly pump up to 9 gallons per minute
- Up to 275 gallons on (1) M12 REDLITHIUM XC4.0 Battery Pack
- HYDROPASS FILTER SHIELDS AGAINST CLOGS
- 360 degree design maximizes flow in heavy debris
- PUSH WATER FARTHER WITH 15FT MAX HEAD HEIGHT
- 36" submersible aluminum barrel provides extension and control to reach water at the bottom of trenches and difficult to reach areas
- Push water out of trenches, basins, and over
