

Turbo TeeJet Induction Flat Spray Nozzle - 110 degree

RTJTTI110

- 110° wide angle, air induction, tapered flat spray tip pattern based on the patented outlet orifice design of the original Turbo TeeJet nozzle.
- Provides excellent drift control and produces less than 2% of driftable fines.
- Patented orifice design provides large, round passages to minimize plugging and improved wear life.
- Depending on the chemical, produces large air-filled droplets through a Venturi air aspirator resulting in less drift.
- Compact size to prevent tip damage.
- Removable pre-orifice.
- Available in nine VisiFlo Polymer (VP) capacities.
- Automatic spray alignment with Quick TeeJet cap and gasket 115835A-* -CELR (015-06), or 114502A (08-10). The 115835A exclusive cap allows for straight through assembly, no need to rotate 90° to insert into the cap.

Specifications

Manufacturer	TeeJet
--------------	--------

Options

Nozzle Capacity Size	Green Grey Yellow Brown Blue Red Lilac
Nozzle Material Code	Polymer
