

## Chain - .063 GA. 3/8 Std. 25ft

R58-038

### Details

Standard 3/8" chain for woodcutters in dusty, dirty conditions. Rounded-corner "semi-chisel" cutters work fast and typically tolerate sharpening errors more than most cutter types. Ramp-shaped depth gauges reduce kickback without adding the weight and bulk of bumper drive links or the straps.

### Specifications

Manufacturer	Oregon
Length	25 ft
