

# Milwaukee Flex Head Ratcheting Combination Wrench - SAE - 15PC

RMW48-22-9413

## Details

The Milwaukee 15 Piece SAE Flex Head Ratcheting Combination Wrench Set features 2.5 degrees of arc swing and 144 ratcheting positions, allowing quick and efficient work in tight spaces. The flex head wrenches have double-stacked pawls within the ratcheting mechanism, which increases durability and extends the life of the tools. The flexible head gives you increased accessibility in difficult-to-reach areas. The MAXBITE Open-End Grip improves the wrench's grip on nuts and bolts, offering you 25% more torque than smooth-faced wrenches. This flex head wrench set feature ergonomic I-Beam handles designed for improved comfort and ink-filled size labels for easy size identification and quick distinction between SAE and metric sets. The 15-piece ratcheting combination wrench set comes in a tray designed for steel storage drawers for efficient storage with no wasted space. Milwaukee combination wrenches feature a lifetime guarantee.
