

Milwaukee M12 Mounting Fan

RMW0820-20

Details

M12 Mounting Fan delivers 18V air speed anywhere on the jobsite, providing air performance up to 14 MPH and 400 CFM. This portable fan's 6 inch blade propels air at a fast rate, allowing for quick and efficient cooling, drying, or ventilation. This mountable fan is compact with integrated features for our users to easily mount it in various locations around the jobsite. Our cordless M12 Mounting Fan has powerful magnets, a 2 inch spring-loaded clamp, keyholes, and pass-through holes to deliver air movement wherever needed. This battery powered fan provides our users with unlimited directional airflow with 360-degree head rotation. This cordless fan offers three-speed settings - high, medium, and low, providing optimal air speed control. With up to 16 hours of run time on a M12 XC 6.0 battery, M12 Fan provides all day run time on a single battery charge (batteries and charger sold separately).

- 360° Head Rotation
