

Corona High Performance Vine Loppers

- 19"

RCAL8321

Details

This high-performance vine lopper is constructed with high-strength, 19" elliptical aluminum handles and an unmatched blade design that dramatically reduces the force-to-cut. The resharpenable radial ARC bypass blade is fully heat-treated forged steel to withstand professional usage. 1-1/4" diameter cutting capacity. New and improved design that eliminates the nut-retaining clip. Lightweight.

- High-strength, 19" elliptical aluminum handles
- Resharpenable, replaceable radial ARC blade
- 1 1/4" diameter cutting capacity
- Heat-treated forged steel for durability
- Forged, slant-ground hook with self-cleaning deep sap groove
- Locking nut eliminates nut-retaining clip
- Lightweight

Specifications
