

Tire - AT24 x 9-11 (6 Ply) Carlisle Black Rock

RCT560530

Details

Designed to balance ride quality with an aggressive $\frac{3}{4}$ inch tread depth, the Black Rock tire is built to handle any trail conditions while also providing a smooth ride.

- Asymmetrical tread design for stability
- Open lug design for reduced mud packing
- $\frac{3}{4}$ inch tread depth
- Soft to intermediate surfaces/mud
