

CTEK Comfort Indicator Panel, Flat Pin

RCTK56-562

Details

Comfort Indicator Panel is designed and developed to make the maintenance of the battery in the vehicle easy and convenient, especially when the battery is hard to reach. Simply mount the indicator panel, route the cable to the battery, then connect the charger to the socket on the indicator panel. The light indicator shows the status of the battery and easily charges whenever necessary for prolonged life. Indicates when the harmful sulfation process begins. Two cable lengths available.
