

Echo Srm Echomatic Head

REC21560070

Details

The ECHOmatic head is designed for light to medium landscaping where time and speed are a must. With a maximum line diameter of .105 in., it makes this head an ideal choice for landscapers and homeowners on the go. This easy to load, bump-to-advance system reduces downtime so you get more done in less time. The 2 piece head construction with a partitioned spool reduce line tangles for even more efficiency. For use with ECHO SRM model trimmers only.

- Ideal for Landscapers for "On the go" head replacements
- Durable, 2-piece construction head for light to medium-duty trimming applications
- Simple tap-to-advance to reload
- Accepts up to 20' of .095" line
- Comes pre-loaded with 20' of .095" Cross-Fire
- Requires manual loading of trimmer line
- Fits all ECHO SRM Models
