

Kochek Mult-Mist Nozzle - 1in

RG90028

Details

The ultimate syringing and infield conditioning tool. The 1" Multi-Mist Nozzle comes complete with three (3) adjustable gallonage tips, 25 GPM, 35 GPM and 55 GPM, to apply precise and accurate water patterns for a light syringe or to perfectly dampen infields. The droplet size and water flow can be set to suit any application ranging from 10-35 GPM. Heavy duty aluminum nozzle with ergonomic feel and comfort. Simply attach the desired tip and your optimum spray pattern and flow will be achieved. Nozzle complete with three interchangeable tips. 1" NPSH. Made in USA.
