

Kochek Residential Nozzle - 3/4in

RG90033

Details

A low volume professional turf nozzle. Spray a straight stream and fog pattern much like the high volume nozzles. Spray an effective flow with pressure ratings from 40 to 200 PSI and maximum flow of 15 GPM. Perfect for irrigating a lawn, flower beds or syringe putting surfaces and even condition infields with no more than 15 GPM output. All aluminum and stainless steel construction. 3/4" GHT. Made in USA.
