

Rain Bird Turf Swing Joint - 3/4x12"

Mxm NPT

RGA66715

Details

Preassembled units save the contractor time and reduce installation costs. Excellent structural integrity from the swept elbow design reduces the costs associated with fatigue related failures. Double O Ring provides extra protection against leaks and keeps threads clean of debris making hand tightening easy. The TSJ-PRS combines the great flow characteristics of the Rain Bird turf swing joint with an inline pressure regulating outlet elbow for controlling and maintaining constant pressure right at the rotor inlet.

Specifications

Manufacturer	Rain Bird
Box Quantity	20
Package Quantity	1
