

Underhill Cadence Organosilio x Ane/Spreader/Penetrant Blend - 1 Qt. Bottle RGCADEN1Q

Details

Cadence is a low use rate, spreader-activator tank adjuvant that significantly improves the performance of pesticide and fertilizer spray application. Use when the accompanying pesticide label instructions recommend the use of a nonionic surfactant. The super spreading action is the result of reducing surface tension dramatically lower than traditional non-ionic surfactant adjuvants. Unlike conventional surfactants, Cadence rapidly covers and penetrates waxy plant surfaces to allow larger amounts of active ingredient to enter the plant. Use as a dew control agent for turf and as a mulch, peat or potting soil surfactant. Use Cadence at 6 fl. oz. (180 ml) per 100 gallons (378.5 L). 1 Qt (946 ml). (378.5 L) to rapidly deliver the most active ingredient or water to targeted surface. 1 Qt. / 946ml. Bottle.

Specifications

Manufacturer	Underhill
Container Size	1 qt
