

Rain Bird He-Van High Efficiency Variable Arc Nozzle - 12-15' Radius RGHE1501

Details

Rain Bird HE-VAN nozzles offer even coverage throughout the spray pattern, delivering a healthy, beautiful landscape. Gentle close-in watering eliminates dry spots around the spray head. HE-VAN nozzles also generate large wind-resistant water droplets that prevent misting and airborne evaporation, so the right amount of water is delivered to the right place. The high efficiency of the HE-VAN nozzle allows you to shorten your sprinkler run times by up to 35%, saving you water and money. Even coverage makes them the perfect choice for homeowners looking to conserve water while maintaining a healthy beautiful landscape. Available in popular 8', 10', 12', and 15' radii, HE-VAN nozzles also offer matched precipitation with Rain Bird MPR and U-Series nozzles. User with green very fine mesh filter screen (included) to prevent clogging.
