

Leemco Saddle - 8 x 2 Lateral For Lv- Valve Double SS Strap

RGLRDLS-800

Details

Leemco Saddles are made of durable ductile iron with a fused epoxy finish specifically designed for high corrosive soils. All hardware and saddle straps are made of 304 stainless steel and the nuts are coated to prevent galling. TS, LTS & LTDS-Series are ductile iron that hinge on one side and bolt on the opposite side. All saddle gaskets are constructed of high grade EPDM rubber for leak proof connections. The 2" LAT Bell gasket outlet accepts Leemco Lateral Angle Valves and Lateral Accessories. Epoxy coating is 10-12 mil thickness to protect against corrosive soils.
