

Hinged w/Gate Enclosure - 38x60x58

Tan

RGSE1022TN

Details

The N Pattern enclosure is designed for angle pattern backflows but also works well covering pumps and other equipment. Large air-vacuum-relief valves easily fit inside these units for example. Mounting hardware included. Powder coated steel framework. Hinged with gate. Woodland Tan. Made in U.S.A.

- Designed for angle pattern backflow assemblies
- Powder coated steel framework
- No sharp edges or corners
- Install with EncPad Enclosure Pad or concrete base
- Mounting hardware included
- Made in the U.S.A.
