

Bird-Stop Repellent - 1 gal

RP2000

Details

Repel geese, ducks, seagulls, woodpeckers and pigeons from grass, turf, crops, water and buildings. This food-grade taste aversion agent (Methl Anthranilate) is made from a bitter, smelly derivative of concord grapes that birds avoid. Geese leave treated areas for the long term. Liquid can be painted or sprayed. Environmentally safe. Biodegradable. Developed with USDA assistance. One gallon treats one acre. Please note: This product is restricted from air freight, and will only be shipped ground freight.
