

Pond and Fountain Protector

RP2070

Details

Spend less time cleaning your fountain! Natural enzymes ensure sparkling clear water and eliminate sludge, ammonia, cloudy water, and odor. One capful per 100 gallons of water prevents mineral deposits from forming, keeping pumps and water lines free from organic buildup. This unique formula for fast moving water and multi-component filtration systems contains safe and natural enzymes which break down organic contaminants naturally. Safe for rubber, plastic, stone or ceramic liners. Will not harm birds, fish, pets and plants. Non-toxic. 16 oz bottle.
