

Pyramid Ball Stacker - 140 Balls RP40254

Details

Load and display balls in a perfect pyramid shape with no lifting or turning of a ball-filled tray. Simply pour balls into the stacker, lift off and move on. Stackers constructed of galvanized welded steel with stainless steel mesh for long life. Metal trays are galvanized steel welded fabrication for long life. ABS plastic trays are lightweight, strong and weatherproof. Trays sold separately.
