

Spoton Nozzle Cleaner and Tip Tool

RSC27860

Details

Designed for spray tip and nozzle body cleaning and maintenance. This innovative air blast nozzle cleaner operates by hand pump to provide a 59 PSI air blast for clearing debris from spray tips. The 4-in-1 Tip Tool features a brush for filter cleaning, foldout plastic pick ideal for easy induction nozzle removal and debris removal, spanner wrench for nozzle removal due to dry pesticide and utility hook for disassembling nozzle and filter cleaning.
