

3M Wire Connector - R/Y Spring Pkg/500

R3M50425

Details

The Performance Plus connectors provide maximum protection and wider wire range. It incorporates a long flexible skirt with a rigid top, enabling the connector to conform in a box while protecting the connector and covering over strips. And it has a square wire spring that grips quickly, turns on fast and expands to accept a wide range of wire sizes - biting into conductors for a solid, secure connection. Because of their increased wire range, just three Performance Plus connectors handle the work of eight standard connectors.

- 3 Performance Plus connectors handle the work of 8 standard connectors
- Maximum protection & wider wire range
- Long flexible skirt
- Rigid top
- Square wire spring grips quickly
- R/Y, 2 #18; 2 #8, Bag 500
