

Elvex Go-Specs Safety Glasses - 50% Copper Blue Blocker R7063BB

Details

The best fitting, most comfortable eyewear you have ever worn. Lightweight like safety glasses and fit like goggles. Soft foam fills the gap between your face and the lens to keep out wind, dust, sand or airborne debris and to resist body oil and sweat. Multiple ventilation ports allow for air circulation, superior anti-fog performance and wearer comfort. Blue Blocker is excellent for intense outdoor sun glare reduction with "blue blocking" properties to reduce outdoor haze and increase contrast. Polycarbonate, UV protection. Adjustable lens angle. Impact-resistant. Lens is 50% copper blue blocker lens with black frame with orange accent.

- 50% Copper Blue Blocker Lens with Anti-Fog SuperCoat
- Dual ventilation ports around lens and large side temple ports allow air circulation
- EVA closed cell foam for a soft and flexible foam seal
- Pantoscopic angle adjustable temples
- 100% UV protection
- Complies with ANSI Z87 2-2010 (+)
